The present volume of bank deposits and currency in circulation is large enough to sustain business activity and employment at much higher levels than ever before in the peacetime. A. C. Sienkiewicz, vice president of the Federal Reserve Bank of Philadelphia told the National Association of Bank Auditors and Comptrollers at Atlantic City.

Tax-paid cigarette production in March amounted to 26.4 billion units, the largest monthly volume since October, 1945, Bureau of Internal Revenue recently. In March, 1945, 18.6 billion cigarettes were manufactured for civilian consumption.

## CINEMATIC CHATTER

**By Malcolm M. W.**  
Again I am going to talk about one show, which is due at the Everglades Theatre on Thursday-Friday, June 27-28 and seems to me to be an offering that merits the space in this column for a thorough discussion.  
The picture is "This Love of Ours." The stars are Merle Oberon, Charles Korvin and Claude Rains and the supporting cast is made up of the cleverest featured players available in Hollywood.

The picture is an adaptation from the stage play, which was successfully produced in America in a dramatic role, gives

her acting full play as the wife, Claude Rains, the "other man" is a caricature artist who expresses his ironic outlook on life in charcoal.

Charles Korvin, who by the way is a forceful new personality in films, is splendid in the father's role.

The picture's many individually brilliant sequences add up to a fine motion picture, with suspense not the least of its engrossing qualities.

Among scenes remaining

my memory are those between Miss Oberon and Korvin on their wedding night in Paris and their reunion after many years in a tawdry Chicago night spot. I'm sure you'll like it.

## Local Boys Leave For Camp Osborne

A group of Boy Scouts left Sunday afternoon for two weeks at the Scout camp on Lake Okechobee. Coach William Cooke drove them over on a truck donated for the purpose by Joe

Cherry. Those attending are Teddy Pope, Kenneth Lutz, Henry Fears, Buddy Friedman, Ross Winne, C. W. Crosby, Willard Jones, Lee and Billy Burke and Howard Cornell. John Breger is also attending and serving this year as junior counselor. Lieutenant Preble, a house guest at the Breger home accompanied John and will assist the Scout leaders.

and generating sets, made in 5 sizes from 3.3-4 to 50 continuous H. P., at 1200 R. P. M. in 1, 2, 3, and 6 cylinder models.

Sheppard Diesels are of the full Diesel, solid fuel injection type with compression ignition. No special starting devices... no electrical ignition... no carburetor to maintain and service. 24 volt electric starting motor, power take-off and clutch are standard equipment.

Removable, wet-type cylinder liners... oil spray-cooled pistons... full pressure lubrication... full floating piston pins... are just a few of Sheppard's advanced engineering features.

The exclusive Sheppard fuel injection system insures easy, sure-fire starting because it was developed with the Sheppard engine—not adapted to it.

Sheppard Diesels are ideal for driving portable or stationary pumps, compressors and saw mills. Their compact design facilitates handling and assures maximum H. P. output per cubic foot of installation space.

## A New Booklet On DDT Facts And Fiction

has just been published from the pen of C. F. Ladeberg, manager of the Insecticide Division of the Kilgore Seed Company, which indeed is a most timely and informational treatise which should be in the hands of every progressive farmer.

To the end that this is possible the Kilgore's have supplied their stores at Belle Glade and Pahokee with a limited number of these booklets, which are free upon application. They are booklets that should be preserved for the farmer's library, as it will be a work often sought for the latest and best information on DDT and its companion insecticides, for it contains the formula and manner of use of all the combinations possible of this important new WONDER insecticide, along with its chemical history and adapted uses.

### OBSERVATIONS

Continued from page 1  
display sheds and auditorium, the Station will certainly grow in work and value to the farmers.

Looks as if the outdoor men and sportsmen of the Glades mean business in looking after fishing, hunting and conservation work. With three large active Wild Life Clubs operating in Palm Beach county, each of them with their powers, and reflections in the fact that they are in mutual conjunction on a united program, there should be some marked changes in conditions throughout the county. The East Coast boys have their salt water troubles, and excess to protect; while over in the Glades it is fresh water and game conditions which demand attention and protection. With a untold force, even the State Commissions, will be ready to listen to recommended changes in present laws and regulations.

Although the presidential race is two years away, yet public interest in the probable outcome is at present higher than it sometimes is in the height of the regular campaign. Legislation, strikes, new homes, more will be in industry in the years has been away from those sections.

As a result of the fine work done by the local police force since its present set-up the city has collected funds sufficient to pay all operating expense of the department for a full year. That means salaries, new equipment and incidental expenses, as well as a sizeable chunk of money to be used by the city in other ways.

Phil O'Connell says that the United States is doing far more for the rehabilitation and feeding of the war ridden countries than any other nation, but are not being given the credit we deserve. It is to this nation that the nations look for the dollar and food supply, but European publicists are leaning way to the left to give credits to Britain and Russia. He says "That there is no doubt about the need of this assistance of ours for only one who has seen conditions, can imagine them in their true light."

the House of Congress. Trends of the voters seem to carry out some semblance of truth to the above mentioned predictions. And still the GI and the war earner are wondering where they stand in all these affairs.

A negro preacher in giving the definition of the phrase "status quo" defined it as "the hell of a fix we find ourselves in."

The recent strikes in coal, auto and rail car shows reflections in the fact that they are out of production of 2,900,000 vehicles, almost equal to six months normal production.

National Flag Day celebration over the nation came on the Fourteenth, but there were very few Betsy Ross designed national emblems displayed in Belle Glade. The one at the City Hall was naturally displayed for it hangs out every day.

But "Pop" Evans will have a grand, glorious and interesting trip when he visits the places of his early American employment in the northern states of Pennsylvania, Ohio and Illinois. What a change he will see in industry in the years has been away from those sections.

### Col. A. B. Jones Discusses St. Lawrence Disasters

Colonel A. B. Jones, U.S. District Engineer, Jacksonville, leaves Thursday for New York to attend an engineering conference on the final report of the Galop Rapids Section, St. Lawrence River Navigation Project.

The work on this item has been carried on intermittently for the past three years under Colonel Jones' jurisdiction. While District Engineer at Massena, N. Y., he was in charge of the proposed improvement and the preparation of contract plans and specifications. A scale model of the proposed improvement was constructed, tested and studied at the U. S. Waterways Experimental Station, Vicksburg, Miss. By use of the model the most effective and satisfactory locations for the channel were determined and modifications of the design were developed which will reduce the original cost by many millions of dollars.

In the absence of Colonel Jones, Major Blase Nemeth will assume charge of the Jacksonville District office.

### Hyacinth Survey Being Made By U. S. Engineers

An aerial Water Hyacinth Survey will begin this week according to an announcement made by Colonel A. B. Jones, Jacksonville District Engineer.

The survey will cover all the State except the Everglades and certain other areas considered unsuitable for eradication. The survey will be conducted by a Government observer from his office will conduct the reconnaissance for the purpose of making a visual determination of the extent of growth of Water Hyacinths and noting the degree of infestation. The observer will record these data on large size photographs while the plane is in flight. Contract for the plane, including the service of one pilot, was awarded to the Airway Co. The aircraft to be used is a single engine Luscombe, SC-75, No. NC4100.

Completion of the work will require four to six months.

### Returns From Trip

Mr. Jay Lavin, operator of the Glades Jewelry store has returned home from a three weeks business trip which he spent in New York and other northern cities.

### Building Addition

Workers have started construction of the new addition to the Jones Supply Company on West Avenue A at the rear of the present store. The new addition will double the present warehouse space of the company.

### Vacation Bible School
